Functionality Represented (From readme)

Main Screen

- Navigate to the following

Catalog Your Collection

- Users can log their vinyl records, CDs, and other physical formats by entering the SKU number and selecting the specific pressing or edition, creating a virtual representation of their music shelf

Ratings and Reviews

- The app includes features for users to rate and review their music, providing a platform for reflection and sharing. Additionally, it generates personal listening statistics, offering insights into genres, artists, and listening preferences

Analytics and Personal Info

- Provides personalized accounts where users can view their collection details, including item ratings, artist statistics, and the estimated value of their collection. Access a dashboard featuring your collection, reviews, favorite artists, and the total value of your collection, offering a personalized view of your music experience

Wishlist

- Maintain a wishlist of albums, records, or tracks you aim to listen to or acquire physically

Recommendations

- Receive album suggestions based on your ratings, community trends, and popularity, designed to introduce users to new music that matches their tastes.

Community Interaction

- Participate in forums for music discussion or use the marketplace feature for buying, selling, or trading vinyl records and CDs

Other User Profiles -

- View profiles of other users, including their collections and reviews
